Landaff Flag Store Owner is also Weather Hobbyist

By Andrea M. Fitzgerald

LANDAFF - Last May, Bob Watson of Lisbon opened The American Flag Store at 335 South Main Street in Landaff. The little red store is located on US Rte. 302 and NH Route 10 near the Lisbon-Landaff line. The store is just coming off the busy Christmas season, and shoppers from the North Country are thrilled to find a little store stocked with a great variety of flags. Watson carries the high-quality Valley Forge brand of American flags in many sizes. Valley Forge also has an antiques line which offers flags manufactured to look old. Watson also car-

ries many types of flagpoles and accessories. What he doesn't have in stock can be ordered, including 150' commercial flagpoles. Watson is proud to say 99.9% of the flags he sells are made in the U.S. Watson also stocks decorative holiday and seasonal flags and sports flags, which are on sale at this time of the year. A variety of accessories are available such as cups, bunting, grave markers, decals, key chains, windsocks, flag display cases, etc.

Any type of flag can be custom designed and ordered. A customer may bring in the artwork, or Watson will custom design the product.

Bob Watson is also a weather hobbyist. He has a weather station on the roof of his Lisbon home which sends out data to www.nhweatherdata.com, a site The American Flag Store sponsors. This is a free website with up-to-the-minute weather data for Lisbon, the U.S. and other parts of the world. Also on this site, viewers can see Lisbon in real time, since Watson has a live web cam attached to his house. As a nice touch, there is an American flag in the center of the video which shows the wind conditions in front of Watson's home. This interesting website has an infinite amount of information. Watson also has live lightning detection on his roof which tracks thunderstorms, and that data is hooked to www.strikestarus.com, a network of lightning detectors comprised of many hobby sites.
